

## **DCP, LLC HDCP Lab Compliance Test Information**

Licensed Adopters of HDCP can take advantage of the DCP LLC HDCP Lab (the “Lab”) for testing against the requirements of the HDCP Compliance Test Specification.

There are two options for HDCP Compliance testing at the HDCP Lab at VTM.

First, you can bring your equipment here to test. There is no charge to do so for licensed Adopters. We recommend a two-day visit for a Source or Repeater, and one day for Sinks. A typical session sees the first day used to run through all tests and identify as many issues as possible. The Adopter often makes changes to drivers and firmware at the end of the first day and on the second day we re-test to see if fixes are made and assure the fixes did not break other things. Minor changes can be made on the fly where appropriate. Your only cost is for travel.

Second, you can send your device here and we will test it. The cost is \$1500 for a Sink, \$2000 for a Source and \$2500 for a Repeater. You are responsible for shipping costs. Use this option if time and travel prohibit the first option, however this does not have the interactivity of being on hand during testing.

In either case, you will receive all test logs, trace files and other data collected in addition to the Test Report. If your device Passes, you may opt to have the results posted in the public area of the DCP LLC web site.

The Lab is equipped with automated instruments designed specifically to carry out the tests described in the HDCP CTS. These and other instruments also have the capability to monitor DDC traffic during testing. There are a number of source and sink devices on hand to perform functional and interoperability tests as well.

Expert staff will assist you in using the equipment, analyzing the results and completing the test reports.

What is not provided:

The HDCP Compliance Test is not a certification or logo program. It is provided to help you assure the correct implementation of the Compliance Rules for hardware and software and comply with the terms of the license agreement.

The staff will not provide advice or assistance with product-specific issues beyond those relating directly to the understanding of the tests.

Transportation, lodging and meals are your responsibility.

How to apply:

Download and complete “HDCP Test Application and Product Capability for ATC” from <http://www.digital-cp.com> and send via email to [hdcplab@vtm-inc.com](mailto:hdcplab@vtm-inc.com). You will be contacted to schedule a visit. We recommend 2 full days to thoroughly test most products. Prior to arrival download and complete the “HDCP ATC Agreement” from <http://www.digital-cp.com> and return it via mail or fax to

DCP, LLC HDCP Lab  
VTM, Inc.  
3855 S.W. 153<sup>rd</sup> Drive,  
Beaverton, Oregon, USA, 97006  
Fax: (503) 644-6708  
Email: [hdcplab@vtm-inc.com](mailto:hdcplab@vtm-inc.com)  
[www.vtm-inc.com](http://www.vtm-inc.com)

Use the same procedure for devices sent to test for fee. You will be contacted regarding scheduling for the test and payment terms. Payment is due on completion of testing.
